

# OpenAI API Overview – Sample Course Outline

Duration: One Day

This course will be suitable for developers who want to integrate AI capabilities into their applications, or anyone who wants to learn how to use OpenAI API.

## What will be covered?

- ✔ Understanding OpenAI capabilities
- ✔ API key configuration and access
- ✔ Integrating AI services into applications
- ✔ AI model optimisation

## About this course

### Attending this course will help you to:

- Understand the capabilities of OpenAI API.
- Configure your API key and access the service.
- Comfortably navigate the OpenAI API documentation.
- Write and configure various API requests to the service.
- Integrate OpenAI API into your applications or services.
- Optimize your AI models for accuracy and efficiency.

### Prerequisites for attending:

- Learners should have a working knowledge of programming languages such as Python (Python will be the language used to demonstrate these features)
- A paid account to OpenAI is required.
- A stable internet connection.
- A second monitor is recommended but not required
